Thank you for your message.

We are pursuing this earnestly. Politics must have no role in science or emergency communications.

Dear Mr. McLean,

I have read that you have opened an investigation into the agency's response to President Donald Trump's Hurricane Dorian forecasts. I hope this is a legitimate call on your part as we have no idea who to trust and not trust at this stage.

If you are in fact a fearless advocate for the truth being fully revealed and for NOAA to immediately retract the inaccurate statement put out by the acting administrator to vindicate the president then I want to thank you and all others who refuse to be part of the destruction of NOAA and of our democracy.

Sincerely,
