Btw, as I suggested to George earlier, the western ensemble cluster *\*might\** be the genesis of the sharpie area. I went back to verify my recollection, and this is it from Friday morning. Guessing this is the area of uncertainty that his sharpie staffer was drawing.

Team,

Please see the video linked to the White House Twitter Feed here:

<https://twitter.com/WhiteHouse/status/1169300628000124929>

Note the NHC forecast product includes an extra black line over Alabama. Do we know what day this product was from, and whether the AL portion was included on our original product?

Jeremy, please monitor Twitter on this to see about retweets, any other media activity.

CCing Ken for awareness but hoping NCEP and Coms/PA teams can work this to ensure Ken can stay on ops as needed.

Thanks

George
