Not so far. No media but I assume a WH photographer was there so waiting to see when they distribute one of them.

Kindest regards,
Julie Kay Roberts, CEM
Deputy Chief of Staff
National Oceanic and Atmospheric Administration

Julie,

Thank you.

Any photos from the White House?

Charles

Sorry catching up on emails now after long day. I sent a note to Joe directly this afternoon after Dr. Jacobs briefed the President and Vice President. We should be set.

Kindest regards,

Julie Kay Roberts, CEM
Deputy Chief of Staff
National Oceanic and Atmospheric Administration

Julie,

Sorry, I forgot to include the NWS portion:

August 26-Current: Additional Support Activities due to Hurricane Dorian: The National Weather Service has been providing a wide range of Impact-Based Decision Support Services (IDSS) due to Hurricane Dorian. This includes briefings from the National Hurricane Center for national, regional, and state partners. The National Hurricane Center has also been organizing media pools with a wide range of customers. Numerous Southern Region Weather Forecast Offices are in contact with local emergency managers and media. Additional agencies including FEMA and USGS have been briefed. The Aviation Weather Center is also providing twice a day TELCONS to aviation partners. Additional upper air balloon launches are being used to provide more information for forecasters and numerical weather prediction models.

Julie,

Would you like to have anything specific mentioned for this?

Hi Charles,

I hope you're doing well. Can we possibly update the Secretary's Report with information regarding upcoming hurricanes?

Do let me know.

Thank you,
Joe Brown
