**Subject:** Hurricane Dorian

Dear Ms. Roberts,  
Politics had nothing to do with Hurricane Dorian.  
Being a Republican President supporter did not give you the right to endanger the American people.  
He gave out false information and by supporting his false information you endangered and harmed the people of Alabama.  
You have eroded the NOAA's scientific integrity and trustworthiness.  
I hope the NOAA fires you or demands your resignation.

B.Smith  
Patriotic U.S. Citizen
