Subject: Disgracefull

Dear Julie Roberts

I understand from the Washington Post that you were one of two NOAA staff who approved the disgraceful press release admonishing your scientist for correcting the grossly inaccurate and dangerous pronouncements of President Trump. I am writing to express my extraordinary displeasure at your failure to do your job. You are employed by the taxpayers to protect them from weather disasters. You are not paid to protect the President from his mindless gaffes and stupidities. You should resign immediately.

Graham Oddie
